DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 5 September 2006 has been entered.

2. In response to the previous office action, Applicant has amended claims 1-3, 8, and 16 and added claim 22. Claims 1-8, 10-12, and 14-22 have been examined.

Allowable Subject Matter

3. Claims 8, 10-12, and 14-22 are allowed.

4. The following is a statement of reasons for the indication of allowable subject matter:

Regarding claims 1, 8, and 16, though art was found discloses the writing to RAM in response to a tamper signal (see U.S. Patent No. 4,634,807 to

Art Unit: 2134

Chorley et al.) and multiple writes to RAM using different patterns in order to protect memory contents (see U.S. Patent No. 6,385,727 to Cassagnol et al.), no art could be found that would render obvious the acceleration of the rate at which data is written during this event.

All other claims are allowable based upon their dependence upon an allowable claim.

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

6. The prior art made of record and not relied upon has been referenced in a previous office action, but not previously itemized in a Form PTO-892.
